

Apostolos E. Papalois, PhD, KGSJ, AMACS – March, 2021

(Bd: July 22nd, 1968). High School, Varvakeion Model School. I was graduated from the Department of Biology, University of Athens in 1991 and I have a PhD degree in biology – biochemistry from the University of Athens in close collaboration with the University of Cambridge, Department of Surgery. My personal training abroad from 1991, contains University of Minnesota, University of Cambridge, University of Boston, University of California Los Angeles and also special training courses (Transplantation, Laboratory Animal Science. Courses, Leadership – Harvard). In 1996 I was appointed Director of the Experimental, Educational and Research Center ELPEN Pharmaceuticals (24 years and 8 months). I have teaching duties in pre - and post - graduate level in Universities of Athens, Thessaloniki, West Attica, Alexandroupolis -Thrace and Patras, after official academic appointment. Totally in 24 Master programs. Visiting Professor (University of Ioannina, Greece, Timisoara, Romania, San Antonio, Texas and Harvard Medical School three times). I have 330 publications in international peer review journals (3 more accepted). In 45 % I am first, second or senior author. Also 178 publications in other international data bases (> 80 % first author).

More than 650 announcements in Hellenic and International Scientific Congresses. Translation of two Book of Biochemistry (Zubay and Devlin) in the Greek language, for use from Medical Students in Greek Medical Schools and other University Departments. Furthermore I am author of 14 books and chapters in books in international publications and author of 33 chapters in scientific books in Greece. Member of the Editorial Board in scientific journals and Reviewer in 43 journals, all in Pub Med. Since January 2021, I am Coordinator and Academic tutor for the Course “Medical Ethics and Personal Data” in the Master program of Open University Cyprus, “Medical Ethics”. Further to my 24 years administrative experience as Director, I am also member of the Board of Directors in several Scientific Societies, member of Working Groups and Committees in General Secretariat of Research and Technology (Ministry of Education and Technology) since 2010. Member of the Scientific Committee of Special Unit for Biomedical Research and Training of the Medical School of Aristotle University of Thessaloniki and after January 2021, President of the Board. Since February 2021, I am Head of Translational-Experimental Research for HEAL (HealthCare Education and Advanced Learning) for HHG (Hellenic HealthCare Group) and Member of the Scientific Committee for Education and Training. Deputy President of the National Committee of Experimental Research and Training according to the E.U. Directive 63/2010, for two terms (since 2016). My term as regular member was renewed October 2020. Since 2017, I am Ad. Associate Professor in the European University of Cyprus, School of Medicine and Member of the join Steering Committee. Since October 2020, I am regular member of the Scientific Board for Human Resources and Skills Development of the National Committee for Research, Technology and Innovation. Since 1996, in the Lab where I am Director, under my supervision or organization, 212 PhD Theses were elaborated and among them 137 were completed (Source: National Archives of PhD Theses). Also 32 PhD Theses are my research ideas and I am participating actively in the

Supervisory Committee or in the final Examination Committee. At the same period of time (since 1996) 38 Master Theses were elaborated under my supervision and active participation and 14 of them (36,8%) were my research ideas. Also I have 36 Honours, Distinctions or Decorations (honorary member of Scientific Societies, decorations, Archontas Patriarchate of Alexandria and All Africa), 60 Awards in International Medical Congresses and Seminars and 155 in Greece, respectively.

Until December 2020, I was organized 553 Scientific Congresses, Seminars and events. 428 of them organized in Greece and 125 as international scientific events. Among them, Seminars in Robotic Surgery and Endoscopy and many other topics. Totally 15.000 Medical Doctors and Healthcare Professionals trained in the Seminars. Totally 438 lectures as invited speaker, 330 of them in Greece and 108 in International Scientific events. Member of many Scientific Societies in Greece and Abroad and Affiliated Member of the American College of Surgeons.

From January 2021, I am General Secretary of NASCE / UEMS, (European Union of Medical Specialists – UEMS – NASCE - Network of Accredited Clinical Skills Centres), the official scientific representative of almost 2.000.000 MDs in the European Union. NASCE is the official branch of UEMS for the accreditation of Clinical Skills Centers, Continuing Education and Development of Guidelines for Training.
